

Puppy Purchase Agreement Contract

Wow Poodle Georgia

Health Statement

The Seller, Wow Poodle, Inc. (hereinafter referred to as "Seller"), guarantees that the puppy is in good health at the time of sale, excluding potential intestinal parasites. The puppy will have received all age-appropriate core immunizations, deworming treatments, and a health check conducted by a licensed veterinarian. A health certificate will be provided upon request.

Minor health issues that may arise from environmental change or stress (such as mild diarrhea or appetite loss) are considered normal and do not constitute grounds for a refund or return.

Buyers must report any health concerns within seven (7) days of purchase, accompanied by a written examination report from a licensed veterinarian. Seller reserves the right to have the puppy re-examined by their own veterinarian before any refund or replacement is considered.

Genetic Disease Warranty

Seller provides a one-year limited genetic health warranty covering severe, inherited conditions that significantly impact the puppy's quality of life. Covered conditions include:

- Patent Ductus Arteriosus (PDA) – congenital heart defect affecting circulation.
- Congenital Epilepsy – genetic seizure disorder.
- Severe Hip Dysplasia (Grade III-IV, confirmed by X-ray).
- Hydrocephalus (severe, genetic cases only).

If a covered condition is diagnosed within one year of purchase, the Buyer must provide a written report from a licensed veterinarian confirming the condition's genetic origin. Upon verification, Buyer may choose a replacement puppy of equal or lesser value from the next available litter. **No cash refunds will be issued.** This warranty applies only to the original Buyer and is non-transferable.
